# Our Process

A proven methodology to get you from idea to live automation fast.

1

## Discovery Call (Free)

30-minute call to understand your business, goals, and current processes. We identify the highest-ROI automation opportunities.

2

## AI Opportunity Audit

We analyse your operations in depth and deliver a prioritised automation roadmap with expected time savings and ROI projections.

3

## Custom Build & Configure

Our team builds your automations on the Epic Saaz platform, connects your existing tools, and tests everything end-to-end.

4

## Deploy & Train Your Team

We deploy all automations, walk your team through how everything works, and hand over full documentation.

5

## Ongoing Support & Growth

Your platform subscription keeps your automations running. We are available for questions, tweaks, and new automation ideas.

---

## What Every Package Includes

- Full deployment on the Epic Saaz platform -- your automations run 24/7
- Integration with your existing tools (CRM, email, social media, etc.)
- Team training so your staff can monitor and manage automations
- Documentation of all automations built for your business
- Bundled platform subscription (3-12 months depending on package)
- Post-delivery support window for tweaks and adjustments

---

## Common Questions

### How long does a project take?

Grow Setup: 30 days. Pro Setup: 60 days. Scale Setup: 90 days.

### What is the payment process?

Contact us to discuss pricing and payment options for your chosen package.

### What happens after the project is delivered?

Your platform subscription keeps everything running. Upgrade or add automations any time.

### Can I see automations before I commit?

Absolutely. Book a free discovery call and we will show you exactly what is possible for your business.

## Book Your Free Discovery Call

30 minutes. No obligation. We will show you exactly what AI can do for your business.
